

UTOPIA

A safe, anonymous space where KIU students
feel understood during academic pressure

—— Team UTOPIA: Teona B. • Ani K. • Saba M. • Aleks T. ——

Demo Day — December 27, 2025

The Problem

Academic Stress is Solitary and Stigmatized

9/10

students fear being judged if they admit they are struggling

80%

feel intensely alone while studying between 9 PM and 1 AM

70%

report a recurring "burnout crash" after every exam period

"At night in my room, I feel like I'm the only person in the world who doesn't get it."

— Nino, 3rd Year CS

The Solution

Replacing Isolation with Validation

UTOPIA is an anonymous peer-support platform

Share your stress without judgment. See that you're not alone. Feel understood.

Key Features:

- **Anonymous Pulse Check:** Share your current state without a profile or identity
- **Relatability Feed:** Instantly see that dozens of others are facing the same deadline
- **Supportive Reactions:** One-tap validation (❤️, 🤝, 🙌) to make peers feel seen

Screenshot: Anonymous feed showing real-time stress moments

MAIN FEED — STRESS MOMENTS

"DB midterm is tomorrow and I've forgotten everything 🤯"

15 others: "Me too" • 3 supportive replies

"It's 11:30 PM and I haven't started my ML assignment"

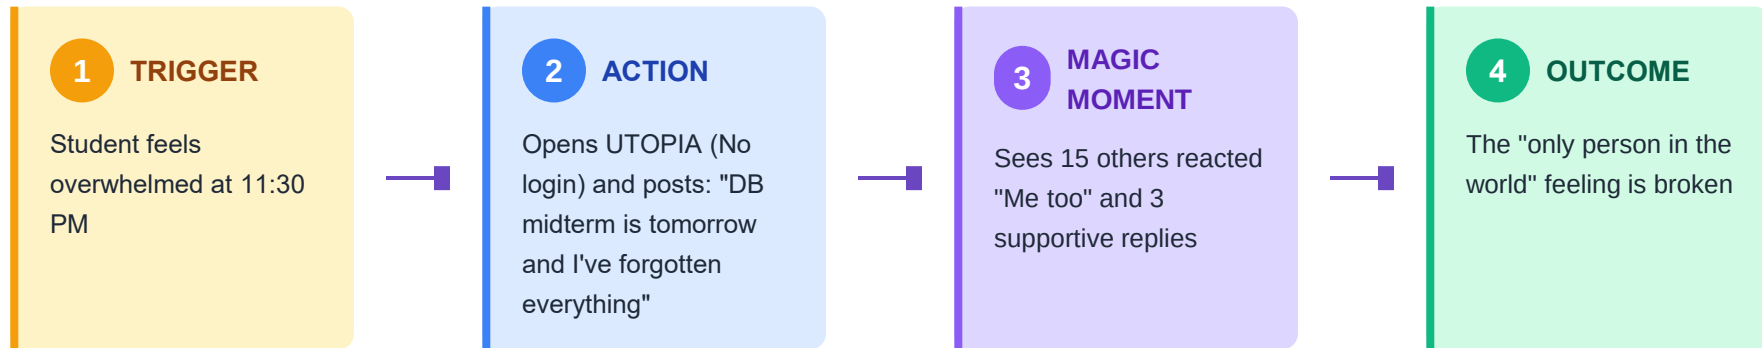

8 others: "Same here" • 2 supportive replies

"Feeling overwhelmed by finals week..."

22 reactions • 5 supportive replies

Product Demo

From Isolation to Validation in 60 Seconds

The product works because it addresses the root cause:

Students don't want solutions — they want to feel understood

Validated through customer interviews and behavioral testing

Why Now?

The Perfect Storm for Student Mental Health Support

● MARKET SHIFT

Rising academic competitiveness at KIU

Has normalized a "push through" culture where vulnerability is weakness

● RECENT CHANGES

Post-pandemic isolation shift

Digital peer-connection is now the preferred method over formal counseling

● THE GAP

Zero space for informal support

Existing tools are for productivity (LMS) or formal help (Counseling)

The Student Support Landscape

TOO FORMAL

University Counseling
Mental Health Services

UTOPIA ✓

Informal, Anonymous
Student-to-Student

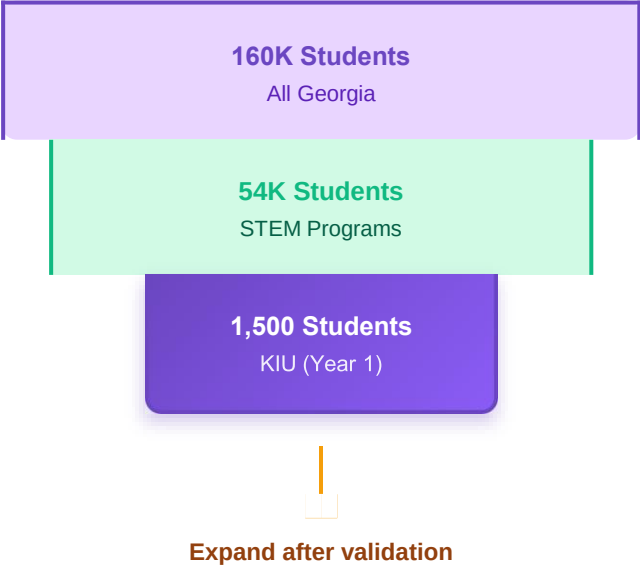

WRONG FOCUS

LMS, Study Apps
Productivity Tools

Based on competitive landscape analysis

Market Opportunity

\$12.5M Total Addressable Market in Georgia

Market sizing based on Georgian education statistics and comparable student wellness spend

Business Model

Freemium with Strong Unit Economics

Revenue Model

FREE TIER

Basic peer support, anonymous posting, relatability feed, reactions

PREMIUM — \$4.99/mo

Mood analytics, priority matching, stress tracking, personalized insights

CUSTOMER ACQUISITION COST

\$8.00

Low-cost campus viral growth

LIFETIME VALUE

\$53.00

12.5 month avg lifespan

LTV:CAC RATIO

6.6:1

✓ Healthy ratio (target: 3:1+)

Based on comparable student wellness platforms

Traction

Strong Signal of "Hair-on-Fire" Need

CUSTOMER DISCOVERY

10 in-depth interviews confirming **100% problem frequency**

Every student reported feeling isolated during exam periods

SMOKE TEST

16.9% conversion rate on landing page waitlist

3x higher than typical SaaS landing page (5-7%)

MARKET INTEREST

60% of survey respondents provided emails for early access

Indicates high purchase intent and willingness to try

BEHAVIORAL INSIGHT

50% of users prioritized "Relatability Feed" over all other features

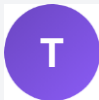

Validates core value prop: seeing others in the same boat

Problem validated. Solution validated. Ready to launch MVP.

Data collected through Lab 11 customer discovery (Oct-Dec 2025)

Team

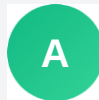

Built by Students, For Students

Teona Berozashvili

Discovery Lead

PM & Documentation specialist. Led customer discovery, synthesized insights, and shaped product vision from student pain points.

Aleksi Tkebuchava

Tech Lead

Frontend & Backend Developer. Building the anonymous feed, real-time reactions, and seamless user experience.

Saba Morchilashvili

Tech Lead

System Design & Testing expert. Architecting scalable infrastructure and ensuring reliability for real-time peer support.

Ani Kelenjeridze

Discovery Lead

Outreach & Research specialist. Connected with students, validated hypotheses, and built waitlist momentum.

All team members are current KIU CS students
